

## ACCR QI Meeting Notes

11/3/17

- Sarah- Talked about co-occurring problems and police issues. Triologue with people in recovery, providers, and the police.
- ACCR meeting on the 17<sup>th</sup>. Anthony will not be there, unsure who is facilitating. Look at the feedback of the logic model and talk about what needs to be added to first goal. QI will report back to the Steering Committee, as well as all of the other committees, with their ideas.
- Logic Model-
  - Additions- additional promotion from the county, strong belief that it should be a long-term outcome related to the general public, and continuing with the activities (possibly doing a project with another ACCR committee).
  - Have done outreach to providers, not much to the people on the front lines.
    - David- Possibly go into staff meetings and present
    - What would we present to the public?
  - Will try to complete all the activities in the logic model
    - Which goal should we focus on first? We need more resources and people to help with these activities.
    - Stipends for more participation- could possibly help with recruitment
      - Note taker, advisors, and co-chairs get stipends
      - Possibly have an ACCR conference with a table for each committee
- First Responders Project
  - Anthony is getting the posters framed and then gifting them to the city and county councils. Also working with David on trying to get replicas of the posters for us to keep.
  - Future projects?
    - Initial goal was to show first responders that they are important in a person's recovery process
      - Possibly have a triologue with first responders and people who have been given Narcan
        - Maybe work with other committees to tackle this
      - Sarah looking for someone who is doing MAT to interview. Recovery Centers of America comes to dialogue meetings.
      - CAP (Conference of Allegheny Providers)- David is on the committee. He always hears that consumers and family members are directly effected by certain state and federal legislations.
        - ACCR can educate, we just cannot lobby.
        - Will discuss with the County on whether we can do this type of activity.
